SUNGCHANG CO.,LTD

FAITHFULNESS

CREATIVENESS

SUNGCHANG CO., LTD
provides the best service based on accumulated
experiences and researches.

Hello?

As a company specialized in WIRE HARNESS,
since its foundation in October 1993, SUNGCHANG CO.,LTD has regarded
its management philosophy **“We can make products that satisfy our customers by carefully listening to customers’
opinions based on sincere attitude and creative thinking”** as important,
under the corporate motto **“Let’s have a spirit of sincerity and creativity”**.
This is the reason why the corporate name is called ‘SUNGCHANG CO., LTD’.

Based on this management philosophy,
we will endlessly work hard to become the Global Top1 Wiring Harness Manufacturer through change, innovation,
challenge, and consciousness of goal.

We will come up to customers’ expectations by paying attention to their opinions.
We will continuously work hard to become a company with E.S.G Management.

Thank you.

the CEO of SUNGCHANG CO., LTD *Park Jang-Yong*

Organization Chart

Business Areas

KITCHEN HARNESS

Electrical circuit for kitchen & living

Composition circuit that connects the electrical/electronic parts(individual parts) and assembly of kitchen & living appliances.

Display unit
(LED display, FND display)

Control unit
(All sorts of switches, CPU, interspace)

Sensors
(high/low-temperature)

Interconnected wiring relation between parts like COMP, Motor, and LAMP

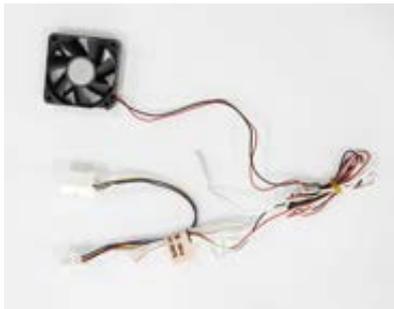

Single harness for refrigerator

Main harness for kimchi refrigerator

Auto Draw Harness for Refrigerator

Multi-Duct Harness for Refrigerator

Harness for Top Fraser Refrigerator

Harness for water purifier

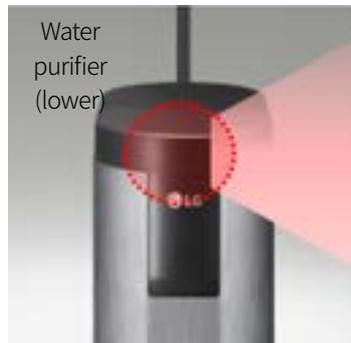

Field of Development

Sterilized water generation module

Development of small sterilization module parts that electrolyze trace amounts of chlorine ions installed in domestic water purifiers with hypochlorous acid ions to produce self-sterilizing sterilizing water and food cleaning water at the same time.

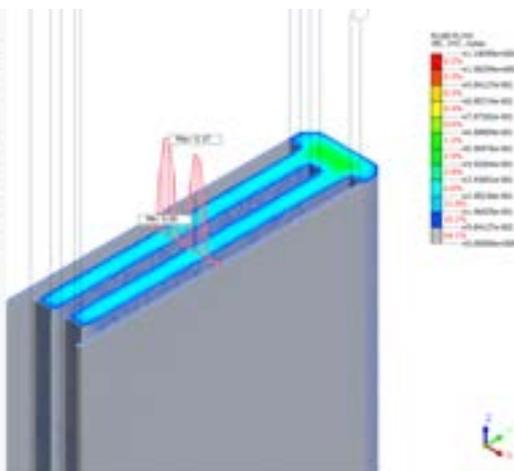

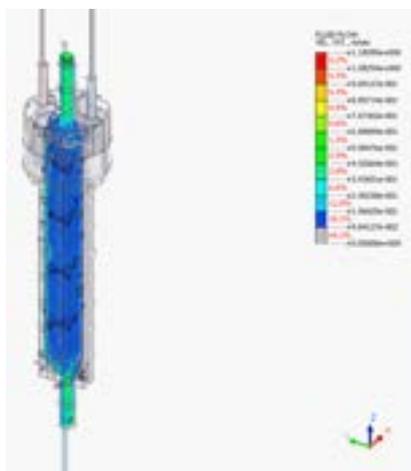

Water purifier (upper)

Water purifier (lower)

Sterilization module

Flow rate and retention time of sterilized water affecting sterilized water production efficiency
